120L
Oil & Fuel
(Hydrocarbon)
Spill Kit

SpillSmart products meet Envirosmart's strict quality control standards together with EPA leachate standards for disposal to landfill.

Designed for:
- Workshops
- Mines
- Manufacturing plants
- Anywhere hydrocarbon based liquids are stored.

Features:
- SpillSmart Floor Sweep – a fast acting absorbent for spills on hard surfaces
- Premium quality, highly absorbent, hydrophobic Poly Socks, Pads and Pillows
- Effective for cleaning up a wide variety of spills including Petroleum, Diesel, Cooking Oil, Solvents & Grease
- Stored in a robust transportable SpillSmart Wheelie Bin
- Meets Environmental Duty of Care obligations
- Made in Australia – Australian Owned

Envirosmart's range of Oil and Fuel (Hydrocarbon) Spill Kits contain highly effective products that will absorb hydrocarbon based liquids including oil, fuel, solvent and grease.

The 120L Spill Kit includes market leading SpillSmart FloorSweep to assist with these spills and non-aggressive water based liquids on hard surfaces. Plus - 100% polypropylene pads, socks and pillows for oil spills. Being hydrophobic, (repel water) they can also be utilised for removing hydrocarbons from the water surface. All of these inclusions are premium quality, high absorbency products.
